RITE CANDIDATE DISTRIBUTION

RITE CANDIDATES DISTRIBUTED OVER 12 OF 12 CESA DISTRICTS
Challenging: because it combined so many different methods of learning (lecture, on-line, project, small group, etc.) with so many individuals with different learning styles, backgrounds and strengths, yet with the singular goal of training effective teachers.

Empowering: for the same reasons as stated above.

JJ - Monticello Public Schools
I learned many useful and practical teaching strategies and I enjoyed the dynamic learning environments and programs richly provided by CESA 6. The program coordinator, instructors and staff are very helpful and supportive in helping me growing into an effective educator.

AW - World Language, Prairie du Chien School District
The opportunity to collaborate with other RITE candidates during our monthly classes at CESA 6 was invaluable. Ideas we shared of our lives in and out of the classroom made our teaching lives easier.

CV - Secondary Science, Marshfield Columbus Catholic Schools
The specific moments that I valued most about the RITE program were when I realized that the RITE instructors were just as vested in my education and excited for my success as I am:-)
Would you recommend the RITE Program to others? If so why?

I would definitely recommend RITE. In WI there is such a shortage of teachers that anyone can get a CTE teaching job regardless of their training. Given that, I would still choose to participate in the RITE program because it provides valuable lessons and training that I would otherwise miss out on.

SS - Technology & Engineering, Seymour Community Schools
There were so many opportunities for hands on and professional experience. More importantly the observations were very effective and applicable.

*DC - Little Wolf School District*
The best moment was getting the results from the EdTPA and realizing that all the instruction and homework from the RITE program helped me get a high score.

MM - ESL, Sun Prairie School District

RITE candidates averaged 44 on the EdTPA Portfolio Spring 2016

What would you have if you could have what you want in teacher preparation with the CESA 6: RITE Program?
Hi Nancy,

Just needed to drop an email tonight to you. I was dreading coming to the RITE Program tonight due to a rough, hard, and very eventful week. I am truly exhausted! Once I got to CESA 6 tonight, my entire mood changed for the better. It's amazing to be around others who know what you are going through and who can offer suggestions. Then (as a BONUS!!!) the material that I learned tonight and the presenters were amazing. The content that I am learning and all the tools that I now know are available gives me hope and continued motivation to bring back what I have learned to utilize within my classroom! Even though the program is a lot of work, filled with a ton of new content...I am glad to be part of it! Without this program, I feel that I may be left in the dark to all of the amazing resources that are out there. (Not to mention, the networking that is happening within class is truly comforting!)

So, I guess I just want to say THANK YOU for this opportunity!

Substitute Teacher Training

Nancy Jaeger and Ellie Olson, CESA 6 Coordinators

Description
Wisconsin school districts are in need of, and want to hire and retain qualified substitute teachers. Wisconsin enacted a rule allowing school districts to hire non-certified teacher substitutes. To be issued a three-year, short term substitute teacher permit, individuals must hold a (four year) Bachelor’s degree, receive appropriate training, and be sponsored by a school district. Our training will teach and engage prospective substitute teachers in activities that mirror real classroom situations. Our certified instructor will model a variety of teaching methods that substitute teachers can use in the classroom. Additionally, participants will gain a deeper understanding of effective teaching principles in order to prepare for future substitute teaching assignments.

Training topics
- Introduction to substitute teaching
- Practical tips and guidelines for being effective in the classroom
- Classroom management techniques
- Important health and safety information
- Age-appropriate learning strategies
- Special Education
- Sample lesson plans
- Substitute teacher permit application process

Who should attend?
Individuals who hold a (four year) Bachelor’s degree from an accredited college or university, but who do not already have a teaching license or a substitute teacher permit.

Wisconsin Licensure Structure – Developmental Age Range Levels

Learn about Educator Licensing in Wisconsin

- Wisconsin uses a developmental level (age range) teacher preparation and licensing system
- Licenses are issued in both:
  - A developmental age range level, which allows an applicant to teach any pupil within the developmental age range of the license, and
  - A subject/position, which allows an applicant to teach specific subject(s) to pupils within the developmental age range level
